

## PRODUCT DATASHEET

# SOLAS WOSS (WATER OPERATION SAFETY SUIT)

A high-performance, non-insulated immersion drysuit engineered for professional use in extreme offshore environments. Certified to meet the Marine Equipment Directive (MED) requirements, it provides essential protection against cold-water exposure, ensuring safety in critical marine and offshore oil and gas environments.

Constructed for extended wear, it ensures durability, flexibility and comfort for professionals operating in challenging offshore settings. Ideal for fast rescue craft operatives, it offers unrestricted mobility without compromising safety.

### Approvals

- Marine Equipment Directive (MED) SOLAS & Red Ensign Approval - Uninsulated Immersion Suit
- UKCA/CE Mark
- PPE Cat I Regulation (EU)/2016/42517 with testing from EN343:2003 & EN14225-2:2017

### Upper material:

Breathable nylon tri-laminate with microporous coating (225gm/mt<sup>2</sup>)

### Trouser material

Clotex polyester tri-laminate with butyl rubber inter-ply (385gm/mt<sup>2</sup>)

Product Code	Colour	Size
Mens	Yellow/Black ▲▼	S / SM / M / MB / LM / L / LB / XL / XXL

### Product codes

120153 Fabric socks  
120153-TH Thermic boots

### KEY FEATURES

- Waterproof & durable, with breathable top
- BDM® zip front entry system
- Integrated, hi-vis 3mm neoprene thermal hood
- 3mm neoprene mitts attached to sleeve
- IMO SOLAS reflective tape
- Internal braces
- Elasticated waist
- PU reinforced seat & knee pads
- Reinforced trouser seams
- Latex cuff seals

### FOOTWEAR OPTIONS:

- Thermic boots
- Fabric socks

### POCKET OPTIONS:

- Flat pockets as standard
