

PRODUCT DATASHEET

TRANSIT TRAINING SUIT 3

A heavy-duty suit designed for use in swimming pools and offshore training schools. Available in three colour options, it features a waterproof construction, internal braces, and fitted auto-relief valves. A grab panel across the back allows for in-water recovery, while the Glideskin neck and double-layer cuff seals provide a secure fit and reduce water ingress.

Approvals

- UKCA/ CE mark
- PPE cat I with testing from EN14225-2:2017

Material:

Clotex polyester tri-laminate with butyl rubber inter-ply (385gm/mt²)
